Mobile: +201287593651 | Address: Alexandria, Egypt | Email: nardinerefaat2@gmail.com | Linked in : <https://www.linkedin.com/in/nardine-refaat-783286290/> | Github : [github/nardinerefaat](https://github.com/nardinerefaat) | Portfolio : <https://react-portfolio-ochre-two.vercel.app/>

AI / Machine Learning

AI and Machine Learning graduate with hands-on experience in Machine Learning, NLP, Computer Vision, and software development. Skilled in Python, data analysis, model development, and real-time AI systems. Passionate about building intelligent solutions and continuously expanding expertise in modern AI technologies.

Technical Skills

- **Programming:** Python, JavaScript (ES6+)
- **AI & ML: Machine Learning,** Deep Learning, NLP, LLM Fundamentals, Data Preprocessing, Feature Engineering, Model Evaluation, Real-Time Inference
- **Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow (Basic), PyTorch (Basic), Streamlit, Imbalanced-learn
- **Data Engineering:** Apache Kafka, Event-Driven Architecture, Streaming Pipelines, Kafka Producers & Consumers
- **Frontend:** React.js, Bootstrap 5, Responsive Web Design
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Kaggle, Vercel

EDUCATION

Faculty of Engineering Electronics and Communication department , Alexandria university ,
[Sep 2020 – July 2025] , GPA : 3.02/4.0 - Grade: B

Graduation Project – Guiding Smart Glass App for the visually Impaired – Grade : A+

LEARNING EXPERIENCE

- **AI Program** – National Telecommunication Institute (NTI), 2023
- **Machine Learning Training** – Route Academy, 2025
- **Web Development Program** – MCIT, ITIDA & Udacity, 2022
- **Full-Stack Development Program** – MEC Academy, 2023–2024
- **Volunteer, Robo-Tech Technical Team** – Python, Computer Vision, OOP, Problem Solving

PROJECTS

Smart Glass Graduation Project

Contributed to building a smart assistive application for visually impaired users. Participated in solving real-world technical challenges.

- Contributed to the object detection module and integrated multiple AI models into a unified real-time pipeline.
- Connected object detection, face recognition, and currency recognition systems with asynchronous processing for lower latency.

- Optimized system performance for fast and reliable operation on mobile hardware.

Kafka AI Routing Model | Python, Apache Kafka, Scikit-learn

- Developed a real-time AI routing engine using Kafka streaming and machine learning.
- Trained a Random Forest model and implemented real-time inference through Kafka consumers.

Handwritten Characters Recognition | Python, Scikit-learn, Tensorflow

- Developed a Handwritten Character recognition with Deep learning and streamlit.
- Trained a CNN model with dataset EMNIST ByClass Input Size(28×28) grayscale images, Optimizer Adam, Loss Sparse Categorical Crossentropy, Accuracy ~83%

Next Word Prediction Model (In Progress) | NLP, Deep Learning

- Building a language model for context-aware next-word prediction using neural networks and text sequence modeling.

Text Summarization System (In Progress) | NLP

Developing an NLP application for automatic text summarization using preprocessing and language modeling techniques.

Tech E-commerce | React.js

Built a responsive e-commerce platform with shopping cart functionality, Context API, React Router, and persistent local storage.

Portfolio Page | React.js

Developed a responsive portfolio website using React, SCSS, and Framer Motion animations.

Strengths

- Strong analytical and problem-solving skills
- Passion for Artificial Intelligence and continuous learning
- Strong teamwork and communication skills
- Ability to learn and apply technical concepts quickly, Fast learner and adaptable to new technologies

CERTIFICATES

- NTI AI Program Certificate (2023)
- Route Academy Machine Learning Certificate (2025)
- Web Development Certificate (2022)

LANGUAGES

Arabic : Native | **English**: Proficient | **Spanish**: Beginner
