Front-end ReactJs Developer

Front-End React Developer specializing in building responsive, high-performance web applications using ReactJS, JavaScript (ES6+), and modern CSS/SCSS. I create clean, user-centered interfaces that deliver smooth and engaging user experiences. Alongside my front-end expertise, I bring foundational knowledge in AI and Machine Learning, applying Python for data analysis and simple models. A fast learner and problem solver, I am eager to contribute to real-world projects and continuously grow in modern web technologies.

LEARNING EXPERIENCE

Ministry of communication collaborates with itida and Udacity – [July 2022] Web development Program

MEC Academy – [November 2023 – July 2024] Full-stack Program

National telecommunication Institution [NTI] [July 2023] – AI Program

Route Academy – Machine Learning

Volunteer At Robo-Tech - Technical students' team [2022]. Learnt python, computer vision, OOP, Hardware basics, html, css, Javascript and problem solving

EDUCATION

Faculty of Engineering Electronics and Communication department , Alexandria university , [Sep 2020 – July 2025] , GPA : 3.02/4.0 - Grade: B

Graduation Project – Guiding Smart Glass App for the visually Impaired – Grade : A+

SKILLS

Front-End: HTML | CSS/SCSS | REACT.JS | JavaScript (ES6+) | BOOTSTRAP | NEXT.JS

Programming & AI (Foundational Level): PYTHON|AI| MACHINE LEARNING | DEEPLARNING

Tools: Git, GitHub, VSCode, Vercel

PROJECTS

Tech E-commerce

A scalable e-commerce platform demonstrating advanced React architecture with Context API state management, custom localStorage hooks, and component-based design. Implemented full shopping cart functionality with dynamic product catalog across multiple categories, responsive layouts, and persistent data storage. Built with React 19, SCSS modules, and React Router for optimal performance and maintainable code structure.

Portfolio Page

A high-performance portfolio application demonstrating advanced React architecture with component-based design, state management, and optimized rendering. Built with React 19, Framer Motion animations, and SCSS modules for scalable, maintainable code.

Markdown Previewer

Built a real-time markdown editor with persistent localStorage storage, implementing custom hooks for state management and Marked.js for HTML rendering. Features tabbed interface with integrated documentation, dark mode theming, and responsive design. Demonstrates expertise in React hooks, local storage APIs, and component architecture while solving the need for an efficient markdown editing workflow.

Quote Generator React App

Fetches dynamic content from external APIs with real-time social media integration. Implemented clipboard functionality and responsive state management using React hooks. Demonstrates expertise in API integration, component architecture, and interactive user experience design.

Restaurants Page

Responsive restaurant website with dynamic menu filtering system using vanilla JavaScript, SCSS preprocessing, and semantic HTML5. Implemented smooth-scroll navigation, interactive category toggles, and a functional reservation form to enhance customer engagement and streamline the dining experience. Demonstrated frontend expertise through modular CSS architecture, DOM manipulation, and performance-optimized single-page application design.

FAQ Page

Built a responsive FAQ page solving client communication challenges. Implemented modern frontend architecture using Bootstrap 5, SCSS preprocessing, and semantic HTML5 to deliver a scalable solution. Demonstrated component-based thinking and responsive design principles while maintaining clean, maintainable code structure optimized for performance across all devices.

Cosmetics

Developed a responsive e-commerce platform for Beauty of Joseon skincare products using HTML5, SCSS, and JavaScript with Bootstrap 5 integration. Built modular SCSS with component-based styling and vanilla JavaScript for DOM manipulation, demonstrating expertise in frontend development without framework dependencies.

CERTIFICATES

Web Developer Certificate - Alexandria, Egypt [2022]

NTI Trainee Certificate - Alexandria, Egypt [2023]

Route Academy Certificate - Alexandria, Egypt [2025]
